WHITE HYDROPHOBIC COTTON

OVER 35% MORE HYDROPHOBIC! SOFT PURIFIED HYDROPHOBIC COTTON

An innovative, natural fiber solution for moisture management applications, HyDri® allows nonwoven fabrics to be designed with the softness and comfort of COTTON which manages and controls moisture. Purified to retain the fiber's natural oils and waxes, HyDri® remains hydrophobic even after the most strenuous hydroentangling processes. Replace synthetic and manmade fibers traditionally used in hygiene and personal care products with a NATURAL solution that is soft, pure and white - **HyDri® Purified Cotton**.

Attributes

- IMPROVED DURABILITY - withstands rigorous hydroentangling processes
- MORE HYDROPHOBIC - over 35% more hydrophobic than previous
- NONABSORBENT - hydrophobicity promotes dryness and comfort
- WHITE & NATURAL - replaces synthetic and manmade fibers in nonwoven applications
- ORGANIC & CONVENTIONAL COTTON - purified with GOTS approved chemistry

PATENT PENDING

RECOMMENDED PRODUCT APPLICATIONS

HYGIENE

- » Backsheet
- » Topsheet
- » ADL

WIPES

- » Surface
- » Beauty
- » Personal Care
